

## Features

Reinforced structure composed of two steel belts and full nylon protector

Zigzag vertical groove and open horizontal groove arrangement with sipes

Special abrasion-resistant tread compound

Wider footprint and contact pressure distribution optimization

Solid shoulder ribs

Variable pitch pattern

## Benefits

- ▶ Deliver extra puncture resistance and robust load bearing capacity
- ▶ Provide excellent wet and dry grip
- ▶ Provide enhanced mileage with reduced heat
- ▶ Reduce vibration and provide a smooth and comfortable ride
- ▶ Provide responsive handling and even wear
- ▶ Superior comfort and quiet ride
