

Features

- Special tread compound
- Four wide circumferential tread grooves
- Continuous solid center ribs
- Improved groove and bead profile design
- Optimized variable pitch tread design
- Tread blocks connected by rib-in-chain

Benefits

- ▶ Excellent grip on wet and dry roads
- ▶ Deliver excellent performance on wet roads
- ▶ Improve directional stability, provide more comfortable experience and prevent irregular wear
- ▶ Better ride stability, endurance and handling performance
- ▶ Superior comfort and quiet ride
- ▶ Enhance steering stability, decrease block deformation and reduce energy loss
